As part of the Dairy Fed's letter to us they referenced that NRCS had asked us to retract the Yakima report. NRCS correspondence to us on the report is in the form of three staff memos attached to a cover letter. One of the staff memos references retraction of the report.

I contacted Larry Johnson, who cosigned the cover letter and asked if it was NRCS' position that EPA should retract the report. He sent the attached letter in response to my question. As you will see, it sidesteps the direct question. I don't know if this is part of the public record on your report, but wanted to make sure we had it in our official files.
